FOUNDER JOURNEY

The greatest transformation of my life came through community.

12 Months 4 Charity & Ironman
Endurance pursuits — peak performance, but isolated achievement

Recovery & Self-Discovery
Where the real transformation began — through honesty and vulnerability

Mental Health First Aid + Counselling
Qualified practitioner — trained in listening and human connection

Men's Groups + Community Walks
Creating space for real conversation and shared experience

More Community Founded
Platform vision validated through real-world community delivery in Tunbridge Wells

THE REALISATION

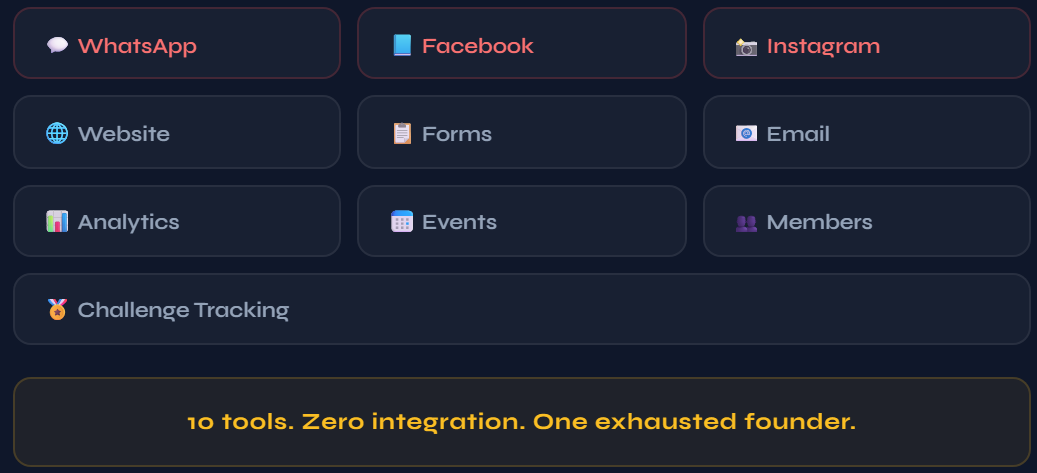
Achievement changed my circumstances. Community changed my life.

For years I chased achievement through business, endurance and personal goals. But the most meaningful transformation came through recovery, honest conversations, running clubs, men's groups and community walks.

THE PROBLEM I LIVED

Building More Community exposed a bigger problem.

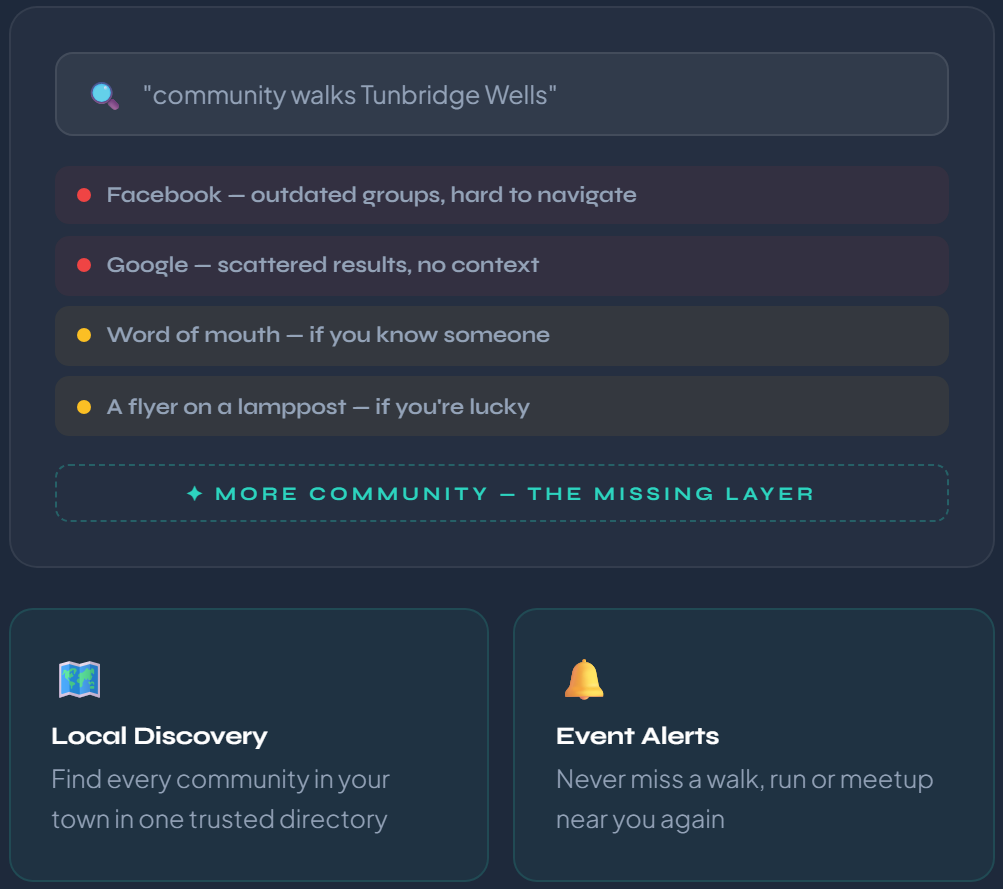
To run one community I needed WhatsApp, Facebook, Instagram, a website, forms, email, analytics, event tools, membership systems and challenge tracking. No single platform was built for community founders.



THE WIDER PROBLEM

Community leaders are the hidden infrastructure of society.

Every town has walking groups, running clubs, volunteering projects, faith groups, parent groups and entrepreneur communities. The people running them are overwhelmed, under-supported and relying on disconnected tools.



Local Discovery
Find every community in your town in one trusted directory

Event Alerts
Never miss a walk, run or meetup near you again

THE DISCOVERY PROBLEM

Communities exist everywhere. Finding them is difficult.

People looking for connection rely on Facebook, Google, word of mouth or luck. Incredible groups already exist in every town — they are simply fragmented and impossible to discover.

THE OPPORTUNITY

One platform for founders and seekers.

More Community gives founders the tools to build, grow and sustain communities, while helping people discover local groups, events and experiences — in one place, free, forever.

🛠️

For Founders

Everything to build, grow and run a thriving community — free

🔎

For Seekers

THE PLATFORM

Beautiful, seamless, investor-ready.

Fully functioning Next.js architecture with live discovery, rich member profiles, and dynamic community engagement tools.

Discovery First

A beautiful feed of local events and communities, fully categorized.

Built-In Engagement

Real-time chat, event RSVPs, and member interactions.

WHY NOW

The world needs more real-life connection.

NHS Social Prescribing

GPs are now referring patients to community groups as a frontline health intervention. The system needs infrastructure — we provide it.

Legacy Platforms in Decline

Under-35s are leaving Facebook Groups. More Community is the trusted evolution — purpose-built for local discovery and designed for all ages.

Loneliness is a Public Health Crisis

9 million UK adults report feeling lonely. The cost to the NHS and economy is £2.5 billion annually.

Demand for Real-World Experience Growing

Post-pandemic, 70% of Gen Z prioritise experiences over possessions. Demand for local events is accelerating.

Councils Actively Seeking Partners

Local authorities and NHS trusts need scalable, trusted platforms to support community cohesion and wellbeing outcomes.

WHY WE WIN

We are not a software company trying to understand community. We are community builders.

More Community is built from lived experience. We have built communities, joined communities, led communities and experienced the transformation they create.

- ❤️ Built from personal transformation — not market research
- 🎓 Mental Health First Aider + Counselling Skills practitioner
- 📍 Deep local roots in East Sussex and Tunbridge Wells
- 🔁 Platform validated through real-world community delivery
- 🤲 Free for leaders — always. We grow by serving, not charging
- 🏛️ Natural fit for NHS social prescribing frameworks

"Built by community builders, for community builders. Not the other way around."

COMPETITIVE LANDSCAPE

No platform does what we do. No one comes close.

Facebook Groups

SOCIAL / DISCOVERY

Declining among under-35s, cluttered UX, no community founder tools, no analytics, no RSVP management.

Our edge: purpose-built, clean, free founder tools

Meetup

EVENT DISCOVERY

Charges organisers, transactional model, weak ongoing community building, no member management layer.

Our edge: free for leaders always, community-first

Mighty Networks

COMMUNITY PLATFORM

Subscription-based (charges leaders), designed for online communities, no local discovery, no real-world focus.

Our edge: local-first, free, built for in-person

Discord

COMMUNICATION

Overwhelming for casual users, no local discovery, no event tools, not built for real-world communities.

Our edge: simple UX, integrated event + member tools

Eventbrite

EVENT MANAGEMENT

Transactional, no community layer, charges per ticket, no ongoing member relationships or discovery.

Our edge: community layer, ongoing relationships, free

BUSINESS MODEL

Free for leaders.
Always.

✓ FREE FOR COMMUNITY FOUNDERS. FOREVER.

We monetise the ecosystem, not the leader. Seven revenue streams — zero charged to leaders. By combining hyper-local sponsorship (native video ads & gamified rewards), an experiences marketplace, premium SaaS tools and B2G enterprise contracts (NHS), the model targets £14.3M ARR within 5 years — profitable from Year 2.

FINANCIALS

Venture Scale.

Built on hyper-local density and national enterprise expansion.

REVENUE BREAKDOWN

EXPANSION STRATEGY

Deep before wide.

We build density town by town. One thriving town with active communities is more valuable than 100 empty locations.
